Privacy Notice for Visitors, Volunteers and Organisers

This is an automatically translated version of the German original. In case of discrepancies, the German version shall prevail.

1 Controller

The controller responsible for data processing in connection with the provision of the website and the platform ("Platform Operator") is: Caluno GmbH, Werner-Otto-Straße 21-27, 22179 Hamburg, Germany, e-mail: support@caluno.org.

The controller responsible for data processing in connection with deployments is the respective company that invited you to volunteer ("Organisation"). You can find its exact address in its privacy notice.

2 Data Protection Team and Data Protection Officer

For all data protection matters relating to the provision of the website and the platform, you can contact the Platform Operator's data protection team at any time at datenschutz@caluno.org. If, in particular cases, you wish to speak confidentially with the data protection officer, you can reach them at the above postal address marked "Confidential – Attn. Data Protection Officer", or by asking for direct confidential e-mail contact at the aforementioned e-mail address. You can find the contact details of the respective Organisation's data protection officer in its privacy notice.

3 Processing Purposes, Legal Bases and Legitimate Interests

3.1 Platform Operator

The processing serves the following processing purposes of the Platform Operator:

- **Login**: registration with first name and surname, e-mail address and password, login and authentication on the platform, password reset, measuring the number of logins;
- **Notifications**: sending and receiving messages and e-mails, in particular as notifications and reminders for sign-ups, invitations, acceptances and cancellations, deployments and documents;
- **Provision**: hosting of the website, establishing the network connection, embedding and designing website content such as forms and fonts, displaying calendar entries for deployments, a history of past deployments and a personal QR code for scanning attendance at deployments;
- **Settings**: configuration of account settings, including language and display mode;

- **Communication**: collection of contact data such as the e-mail address on the website for contacting and communicating with prospective users of the platform;
- **User profile**: creation and editing of a profile, including additional personal information (such as preferred name, gender, date of birth, address, postcode, city, telephone number, IBAN) and a profile picture;
- **Optimisation**: limited aggregated usage analysis to measure the reach of the website (including the number of visitors and page views per day, average visit duration and bounce rate), to optimise and further develop the platform and to correct errors – where visitors per day are determined on the website, this is done by means of a fingerprint made up of the IP address, user agent and a random, day-specific identifier (salt), without storing information on the end device, in order to avoid counting visitors twice;
- **Organisation profile**: creation and editing of a profile, including name, description, e-mail address, telephone number, website, address, logo;
- **Security**: ensuring the IT security and stability of the platform and the website

The legal basis is Art. 6(1)(f) GDPR. The legitimate interests consist in communicating with the Platform Operator's prospective users and in further developing and securely providing the website as well as an easy-to-use and error-free platform on which volunteers and organisers can network, coordinate and plan together.

3.2 Organisation

The processing serves the following processing purposes of the Organisation:

- **Deployments**: creating and managing individual deployments, including invitations, sign-ups, acceptances and cancellations of participants, and creating reports;
- **Communication**: direct communication with volunteers via internal or external communication channels provided, such as e-mail;
- **Memberships**: sending and processing requests (including required details and optional information such as frequency of engagement, interest in fields of activity and target groups) as well as joining and managing membership in Organisations, including assignment of a QR ID, approval and rejection of requests, and assignment and management of roles and permissions;
- **Events**: creating and managing events, including date, location and images, creating, sharing and managing forms, and storing and evaluating the associated responses;
- **Payment preparation**: preparing and summarising payouts in connection with the volunteer allowance (Ehrenamtspauschale) and the trainer allowance (Übungsleiterpauschale);
- **Time tracking**: creating and managing time entries (check-in and check-out time) for deployments of individual participants, including scanning QR codes or entering the QR code ID to record attendance.

The legal basis is determined by the Organisation, but is usually Art. 6(1)(f) GDPR. In that case, the legitimate interests usually consist in managing membership in the Organisation easily, planning events and deployments effectively, preparing payouts and recording attendance.

4 Recipients of the Data

Recipients of the data are the respective Organisations, the Platform Operator and the (hosting) service providers it has engaged: Scaleway SAS, 8, rue de la Ville-l'Évêque, 75008 Paris, France (for the platform), as well as Framer B.V., Rozengracht 207B, 1016 LZ Amsterdam, Netherlands, Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Ireland, and Google Cloud EMEA Limited, 70 Sir John Rogerson's Quay, Dublin 2, Ireland (for the website). Depending on the Organisation, further recipients may be added in accordance with its privacy notice.

5 Transfer to Third Countries

As a rule, no data is transferred to third countries when using the platform; however, such a transfer may under certain circumstances be carried out by the respective Organisation in accordance with its privacy notice. In addition, when using the Platform Operator's website, data may be transferred to sub-processors of the service providers used in third countries. Appropriate safeguards are in place for this; in particular, adequacy decisions exist or standard contractual clauses have been concluded.

6 Storage Period of the Data

The data is stored for the duration of the visit or of the use of the platform. It is deleted as soon as it is no longer necessary for the purposes for which it was originally collected.

6.1 Website

If you register as a prospective user via our form, we store your contact details for a period of six months in order to contact you regarding potential use of the platform.

6.2 Platform

If you close your account, the Platform Operator deletes your account data. Where Organisations create new documents for past deployments, these contain only anonymised data. However, documents created by the Organisations before the account was deleted, such as time records, are not affected by the deletion. Please contact the respective Organisation to have these deleted.

7 Data Subject Rights and Right to Lodge a Complaint

You have the right at any time to access, rectification of your data, erasure of your data, restriction of processing and data portability. **In addition, you have the right to object to processing based on legitimate interests.** If you have given consent, you can withdraw it at any time with effect for the future. You also have the right at any time to lodge a complaint with a supervisory authority if, in your view, the processing of the data violates the GDPR.

If your request concerns processing by an Organisation, please contact it directly with your concern. Otherwise, the Platform Operator will forward your data subject request to it accordingly.

8 Obligation to Provide Data

8.1 Website

There is no obligation to enter data into forms when visiting the website. If you do not enter any data, certain functions may not be available.

8.2 Platform

There is no obligation to create an account or to become a member of an Organisation. If you do not register or do not accept any memberships, you cannot use the platform's features (fully). If certain data is required in the course of using the platform, this is marked accordingly.

9 Automated Decision-Making

The Platform Operator does not carry out automated decision-making. If the Organisation carries out automated decision-making, it will inform you of this in its privacy notice.

10 Access to and Storage of Information

Insofar as information on your end device is accessed or information is stored on your end device when using the website or platform, this is strictly necessary in order to provide the website and the platform. Below is an overview of the specific information stored:

10.1 Cookies

The following cookies are stored on your end device:

- "caluno.locale" (1 year): storage of the language;
- "__Secure-better-auth.session_token" (7 days or until logout): authentication of the login;
- "caluno.last_org_slug", "pending_invite" and "pending_redirect" (30 minutes): storage of the last Organisation, in particular for redirecting to the appropriate page

10.2 Local Storage

The following objects are stored in the local storage of your end device:

- "theme": storage of the display mode (light/dark);
- "better-auth.message": storage of the logout time
